## FIBLA

Fibla has released on much-respected label **Sub Rosa / Quatermass** (Belgium) and collaborated on other international labels such **Expanding, Benbecula, Worm Interface** (UK); **Couchblip** (Australia); **Klangkrieg** (Germany), **Cosmos** (Spain), etc. He's also corunning **spa.RK label** based in Barcelona, where he released his second stroke "Lent" (2003). Chopped-up beats and opening textures, subtle rhythms patterns, filled with a taste for smooth arhythmic methodicity, lunars sounds and melodies, everything interweaved on a solid sound, deeply belonging to the nowadays diversified electronic scene. Even if Fibla's sound is close to the british or german electro scenes, there is something more, some little details that indicates that this guy is from a place where the sun never forgets to shine...
